6. Safe Management Measures

We would like to thank you for rendering your support in the implementation of Safe Management Measures for Phase 2. We will continue to implement these measures and need the effort of all parents and students to exercise social responsibility so that our school continues to stay safe.

We would like to highlight again the safe management measures that we should all observe:

- If your child is feeling unwell (e.g. sore throat, fever or cough), please see a doctor and do not come to school. If diagnosed with Acute Respiratory Infection (ARI), students 13 years and above will be prioritised for COVID-19 testing, while students 12 years and below will be assessed by the doctor as to whether a test is required.
- If there are any adult household members unwell with flu-like symptoms, inform the school and keep your child at home. Ensure that the unwell adult household member seeks medical treatment promptly.

We deeply appreciate your warm care and kind words of encouragement in facing these difficult times. May Allah (Subhanahu wa ta'ala) protect us all and grant a speedy recovery to those who are still affected by this virus.

Thank you for your support and partnership. Continue to stay safe.

Yours faithfully,
